

BETON TROWEL

CONCRETE FINISHING & COMPACTION

BT45H PORT-A-VIBE

The Beton Porta-A-Vibe Concrete Vibrator provides an easy solution to vibrating concrete floors and foundation footings. Being a completely independent unit there are no cables or long flexible shafts to drag through the floor. The operator can easily keep up with the concrete pour.

- Reliable Honda low emission 4 stroke petrol engine
- Well balanced unit with a carry strap for easy operation
- Finger tip control at the handle
- Amplitude & Frequency curves give efficient vibration of the material

SPECIFICATIONS:

- Motor: Honda GX35, 4 stroke
- Head Diameter: 45mm
- Frequency: 9000 VPM
- Amplitude: 2,8 mm
- Weight: 11 Kg
