

WeldOps SE-200 Safety Glasses

Clear and grey anti-scratch lens options

WeldOps SE-200 clear, grey

Elevated protection and comfort

WeldOps SE-200 glasses takes all-day comfort and protection to the next level with ultra-lightweight construction and padded, non-slip temples. The dielectric design contains no harmful metal pieces, while the anti-scratch coating increases product lifetime.

Designed for drilling, chipping and metalworking, ESAB eyewear features the best combination of style, comfort, and total eye protection.

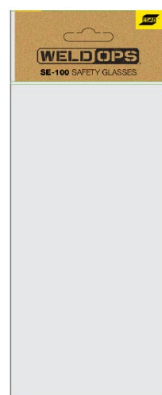

Applications:

Indoor eye protection – clear lens

Outdoor eye protection – grey lens

- Ultra lightweight
- Padded temples increase comfort for all-day wear
- Dielectric design contains no metal
- Anti-scratch coating increases product life
- Meets CE, UKCA, ANSI, and CSA requirements
