Eyewear for the serious welder

Discover ultimate protection and comfort with WeldOps XF-300 eyewear. Crafted with a stylish, full-frame design, these glasses provide superior peripheral protection thanks to their aggressive base curve. Premium levels of comfort when metalworking with thin bayonet-style temples that minimise contact with ears, and an anti-scratch coating that extends the lifetime of your lenses. As a bonus, a handy microfibre storage bag keeps the glasses safe when not in use.

Designed for drilling, chipping and metalworking, prepare to experience exceptional performance with our safety eyewear.

Applications:

Indoor eye protection – clear lens

Outdoor eye protection – grey lens; silver mirror lens

- Aggressive base curve improves peripheral protection and viewing
- Thin bayonet-style temple
- Includes handy microfibre storage bag
- Anti-scratch coating enhances life of lens
- Meets CE, UKCA, ANSI, and CSA requirements
