

Always the right tool

**SLTflex – for the awkward areas!**

Feel the efficiency compared to conventional lamellar flap discs or fibre discs.

**Ideal for:**

- machining of fillet welds
- deburring
- fettling
- fine finishing
- rust removal

Using a high quality coated abrasive (zirconia with a coating of active grinding additive)

**High Performance**

**SLTflex – for radii and fillet weldings**

Ordering example: A27291006018

**Packing unit:**  
10 pcs. per type  
 $v_{max}$ : 80 m/s  
ZKS – Zirconia Alum. Oxide with special coating containing active grinding additives  
ZK – Zirconia Alum. Oxide

**Properties:**

- high flexibility due to elongated flaps (no disturbing backing plate)
- simple tool change (backing plate / pad and mounting nut no longer required)
- extreme tool life

flexible design and...
