

# 14084 - Wit BlackBlade™ (S) Ash Wood

A handmade, reliable full tang bushcraft knife that can be used in vastly different situations on your next long-lasting adventure. The ergonomic shaped handle made of bright ash wood from European FSC® certified forests enables a variety of grips that can come in handy. The black knife blade made of recycled Swedish stainless steel together with its full curvature and drop point tip allows you to get the most out of your experience. The spine of the blade is also compatible with a fire starter.

The unique handle of carefully selected ash wood has a functional grip heel, and a 2.5 mm thick, black knife blade made of recycled Swedish stainless steel, which provides both strength and stability in every cut. Thanks to the blade and handle design, the knife is well-balanced and specially developed for precision work. The black PC-coating creates a balanced contrast between the bright ash wood and the shiny edge of the blade. The vegetable tanned leather sheath has a belt loop and protects the sharp edge from surfaces that can make the knife dull. Wit is also compatible with the accessory Morakniv Dangler 10 with Button, which allows you to extend the distance between the knife sheath and the belt.
