

# starmix **dustfixx** PRE-SEPARATOR

## THE DUST COLLECTOR

### EASIEST HANDLING OF LARGE AMOUNTS OF DUST

thanks to a high degree of  
separation and efficient cyclone  
technology

> 99 %  
Separation rate

MORE  
INFORMATION

## Extend the lifespan of your filters!

The pre-separator for wet and dry vacuums is placed before the vacuum and captures large amounts of dust and dirt particles before they reach the vacuum and its main filter.

- ★ **Efficient cyclone technology** for pre-separation of fine and coarse debris
- ★ **Transparent collection container** for easy fill level monitoring
- ★ **Compatible** hose connection for **ISP, ISC, uClean**, and many other devices
- ★ Direct hose routing via angled couplings ensures **stability and optimal space usage**, even under workbenches
- ★ **Metabox mounting system** for secure attachment to ISP vacuums with railing, Unifix adapter plate & all Metabox interfaces
- ★ **Dust-free transport** by sealing the container with the connection hose
- ★ **Comfortable handling** thanks to side-mounted grips
- ★ **Low-dust disposal** using PE disposal bags
- ★ **Anti-static equipped** safely dissipates static charges through the vacuum

Connecting hose with angled coupling

Bayonet connector for vacuum cleaner

Article no.	130217	Price	219,00 € net
Accessories	1 x connection hose (reorder no. 465951) 1 x PE disposal bag (set FBPE 25l - 10 pcs. reorder no. 468549) 1 x bayonet coupling 49 (reorder no. 529752)		
Technical data			
Degree of separation	Wood dust > 99% Mineral dust > 90%	Container volume	6.6 gal
Max. separable particle size	0.79 inch Diameter	Weight (with connection hose)	9 lb
Height H with mounted connection hose	17.7 inch	Dimensions (L x W x H)	17 x 13 x 15 cm
Length of connection hose	35.4 inch	Connection hose diameter	1.9 inch

**Large amounts of dust? No longer a problem for you!**  
**DUSTFIXX - the extra protection for your vacuum cleaner.**

Operation without disposal bag...

...or with disposal bag
